There have been numerous studies of populations of drivers to check their first aid knowledge.

Results have shown drivers' poor understanding of first aid and a lack of practical life saving skills.

Results:

No.	Number of correct answers	Wrong answers by doctors
1.	21	347, 349
2.	21	345, 346
3.	20	345, 347, 349
4.	20	345, 347, 349
5.	20	346, 349, 350
6.	18	341, 345, 347, 349, 356
7.	18	341, 345, 347, 353, 358
8.	18	345, 347, 349, 353, 358
9.	17	345, 347, 351, 353, 358

Conclusions:

- 1. Some of the pre-medical aid questions raising doubts should be changed.**
- 2. The drawbacks of the training system may be the cause of driver poor understanding and skills of first aid.**
